

English Longitudinal Study of Ageing

Wave Three Interview Questionnaire – 2006-2007

Draft Version 1.0 - October 2006

IMPORTANT INFORMATION ABOUT THE PAPER VERSION OF THE QUESTIONNAIRE

Please be aware that this is a early draft of the questionnaire, so caution should be taken when using this document. Some parts of the questionnaire still need to be improved (e.g. making the routing clearer) and checked for any inaccuracies. You may find it helpful to refer to the Wave 2 or Wave 1 questionnaires as many of the variables and the routing is the same in each wave. We hope to circulate an improved version of the Wave 3 questionnaire in early 2007.

Textfills

^ - This annotation is shown before any textfills that were used in questions. The different options of the textfill are provided in square brackets e.g. [^him/her].

Unfortunately, in this version of the document some of the textfills do not appear. For variables that were in Waves 1 and/or 2, please look at the questionnaire documentation for these waves as it is very likely that the question will have stayed the same.

Checks

The CAPI instrument contains a number of checks to help ensure that the information entered by the interviewer is accurate and consistent. However, these checks are not included in this version of the documentation.

Descriptors

In this version of the questionnaire, some variables have a short descriptor of that variable written next to the variable name in un-bold caps.

Queries

Please contact Kate Cox (k.cox@natcen.ac.uk) if you have any queries about the questionnaire.

Now we want you to remember what was like two years ago and to compare it with what is like now. Two years ago was in . I will read out situations where has to use memory or intelligence and we want you to indicate whether this has improved, stayed the same or got worse in that situation over the past two years. Note the importance of comparing present performance with two years ago. So if two years ago always forgot where had left things, and still does, then this would be considered 'Hasn't changed much'.
