

## Missing Data in Longitudinal and Linked Surveys

*A joint cemmap and Understanding Society workshop*

Tuesday 7th May 2019,

CILIP, 7 Ridgmount Street, London, WC1E 7AE

9:30 Registration

10:00 – 10:40

*“Regression with an imputed dependent variable” (with Peter Levell and Stavros Poupakis)*

**Tom Crossley (Essex)**

10:40 – 11:20

*“Using representativeness indicators to evaluate impacts of non-response and non-linkage” (with Gabriele Durrant)*

**Jamie Moore (Southampton)**

11:20 – 11:40 Coffee

11:40 – 12:20

*“Correcting for non-participation bias in health surveys using record linkage”*

*(with Tommi Härkönen, Hanna Tolonen, Alastair H. Leyland, Pekka Martikainen and Lindsay Gray)*

**Megan McMinn (Glasgow)**

12:20 – 13:00

*“High-dimensional high-frequency retail price dynamics with missing data” (with Alan Crawford)*

**Lars Nesheim (UCL and CeMMAP)**

13:00 – 14:00 Lunch

14:00 – 14:40

*“The good, the bad, and the ugly: non-response, measurement error and administrative mismatch in the CPS”*

*(with Barry T. Hirsch, Charles M. Hokayem and James P. Ziliak)*

**Chris Bollinger (Kentucky)**

14:40 – 15:20

*“Don’t forget the observables: capitalising on the richness of longitudinal surveys to handle missing data”*

**George Ploubidis (UCL)**

15:20 – 15:40 Coffee

15:40 – 16:20

*“Issues in dealing with missing data in longitudinal studies”*

**Jeff Wooldridge (Michigan State)**

16:20 – 17:00

*“Issues in weighting for longitudinal surveys” (with Nicole Watson)*

**Peter Lynn (Essex)**

17:00 – 17:30

**Panel discussion: Open questions and promising research areas**

*Opening remarks from Peter Lynn (Essex), Jeff Wooldridge (Michigan State) and Harvey Goldstein (Bristol), followed by open discussion.*
